

Parents Should Know this Splendid Remedy

Simple Laxative Compound Helps to
Correct Constipation in Children.

With all children there are times when the bowels fail to act naturally and it becomes necessary for the parents to administer a remedy. Cathartics and purgatives afford only temporary relief while their violent action shocks the system unduly. Mrs. Eva P. Gaff, 517 10th street, Washington, D. C., says that her little girl, Marie, had been subject to constipation, and that the found Dr. Caldwell's Syrup Pepsin the best remedy because of its mildness, and now always keeps a bottle of it in the house.

Dr. Caldwell's Syrup Pepsin is a compound of simple laxative herbs, free from opiates or narcotic drugs of any kind, and it is an ideal remedy for children because of its mild action and positive effect. Its use tends to strengthen the impaired bowel action and restore normal regularity.

It is important that parents should know of a dependable remedy with no unpleasant after effects, griping or

strain. Dr. Caldwell's Syrup Pepsin costs only fifty cents a bottle and can be procured at any drug store. To obtain a trial bottle, free of charge, write to Dr. W. B. Caldwell, 54 Washington St., Monticello, Ill.

Uncle Sam Commended By Japanese Diplomat

Policy of This Country toward
China Praiseworthy Says
Mr. Hioki.

PEKING, Nov. 2.—An interview with the Japanese minister to China, Mr. Hioki, which a local paper reports with credit to the Japan Times, of Tokyo, is especially complimentary to the American policy in China and critical of the Japanese attitude.

Mr. Hioki is now on leave in Japan, where he has been for several weeks recovering from an injury to his ankle, sustained while the historical demands Japan made upon China were under consideration last spring.

The published interview credits Mr. Hioki with saying Japan would do well to emulate the United States in its dealings with China. "Take a leaf out of the American book," Mr. Hioki is reported to have advised his fellow-countrymen. "The United States is not bent upon the acquisition of interests and rights in China, while she has done a great deal toward the cause of education in that part of the world. There are three universities managed by Americans for Chinese students. In addition the Boxer trouble indemnity, which the Washington government received from Peking is returned to China, and is being appropriated to the fund for training Chinese students in America. Some fifty students are every year dispatched to America by means of this fund. In these circumstances the Chinese cannot be but impressed with deep gratitude for the American good offices and be well disposed toward Americans."

In contrast to this American policy Mr. Hioki is credited with saying that practically all negotiations conducted with the Chinese by the Japanese since the Meiji era have resulted in ill feeling. He attributes this to the fact that the Japanese take no practical interest in the Chinese after they have completed negotiations, but rather hold them in contempt. Although Anti-Japanese sentiments are believed by Mr. Hioki to be prevalent in several strata of Chinese society he is quoted as saying this feeling does not exist among the thinking classes of China, who are believed by him to be anxious to have good feeling between the two countries. Consequently Mr. Hioki concludes his interview with a statement that smooth relations are possible between Japan and China and are dependent largely upon a change in the attitude of the Japanese toward their neighboring state.

FODDER ALCOHOL.
STOCKHOLM, Nov. 2.—In order to avoid the consumption of grain and potatoes, the manufacture of alcohol and fodder from reindeer moss is being tried on an extensive scale in northern Germany. Reindeer moss is very plentiful in the arctic sections of Scandinavia, being the principal food of the reindeer during the winter. Several large shipments of the moss have been sent to Germany during the last two months.

DETROIT MAY OWN TRACTION SYSTEM SOON

Question is Being Decided at an
Election Which is Being
Held There Today.

DETROIT, Mich., Nov. 2.—This city, if the municipal ownership plan being voted on today carries, will be the first in the United States to own and operate its entire street railway system. For many years Detroit has resounded with arguments for and against this plan. Chicago and Cleveland adopted settlement ordinances which eliminated, for the time being at least, municipal ownership. In San Francisco and Seattle only a comparatively small proportion of the mileage is owned and operated by the people.

To carry the plan must receive a sixty per cent affirmative vote.

For years all efforts of the local traction company to obtain new franchise grants have failed. As a result, while the population has increased with great rapidity, street car service has not kept pace, and the referendum therefore is said to have aroused the personal interest of most of the voters. The lines have been operating for the most part on a day-to-day agreement, with tickets selling seven for a quarter at all times except during the rush periods, when eight for a quarter tickets must be honored. Only on a few miles of track on the Old River and three-cent fare lines are their eight-for-a-quarter tickets good at all hours.

If municipalization carries the traction system will be managed by three commissioners serving without pay. They will be James J. Couzens, until recently vice-president of the Ford Motor Car Company; John F. Dodge, of the Dodge Motor Car Company; and James Wilkie, of the Parke Davis Chemical Company.

Criticism of the plan includes opinion that it will make a political football out of the lines. To this answer is made that the commission will have complete power, that the mayor is pledged to retain in office the commissioners named, and that the commissioners have agreed to say in office. Labor organizations have objected on two grounds, namely—that the plan will invalidate the arbitration agreement between the company and the union, and that the civil service proviso of the plan will weaken if it does not disrupt the union.

That the voters do not know precisely what the lines will cost is another objection raised. An appraisal of the lines by Professor E. W. Hemis gave the value of the property at \$1,700,000. At one time the company declined a municipal offer of \$23,285,000 for the lines. According to the present plan the valuation will be fixed by the circuit court of Wayne county (Detroit). The plan provides that a rate of sale sufficient to meet all obligations shall be charged, and it has been argued in some quarters that this might result in a higher rate.

BETTER BABIES

The crusade for better babies has spread from coast to coast, and taken firm hold of American mothers. Few women realize how much the ill-health of the mother influences the unborn child, both physically and mentally. Women who suffer from mysterious pains, backache, nervousness, mental depression, headaches, etc., should rely on Lydia's Pinkham's Vegetable Compound, made from roots and herbs, which for nearly forty years has been the standard remedy for these ailments.—Advertisement.
